SUMMARY

IT Support Specialist with hands-on experience across identity, endpoint, virtualization, and internal security operations. Complements professional infrastructure work with public security projects in Wazuh deployment and malicious URL classification.

EXPERIENCE

AKA Energy Systems | IT Support Specialist

Contract Full-time | Jul 2025 - Present | Prince Edward Island, Canada | On-site

- Supported core IT infrastructure and security operations across virtualized, server, identity, endpoint, and network environments.
- Implemented Microsoft Entra ID Conditional Access and built internal GoPhish campaigns for access control hardening and security awareness testing.
- Provisioned and managed Windows and Ubuntu virtual machines in Proxmox with static IP assignment, VLAN-aware configuration, and infrastructure support for internal services.
- Improved endpoint operations with ManageEngine Desktop Central for patching, software deployment, inventory management, and remote administration.
- Contributed to early planning for a Wazuh-based SIEM deployment to improve centralized logging, monitoring, and future detection capability.

PROJECTS

Wazuh Stack Bring-Up

- Deployed Wazuh indexer and dashboard on separate Ubuntu 24.04 VMs in VMware Workstation with TLS, JVM sizing, configuration notes, and documented verification steps.

Malicious URL Classification

- Built a lexical-feature benchmark with 651,191 source rows, 640,792 cleaned records, an 80,000-row modeling sample, and saved binary and multiclass evaluation outputs.

EDUCATION

University of Prince Edward Island

Bachelor of Science in Computer Science (Co-op) | Expected 2027

TECHNICAL SKILLS

Security / Identity: Microsoft Entra ID, Conditional Access, GoPhish, Wazuh, Pi-hole

Infrastructure: Proxmox VE, VMware Workstation, Windows, Ubuntu, VLAN-aware networking

Endpoint / Development: ManageEngine Desktop Central, Python, TypeScript, Git, Next.js, Firebase
